EXAMINER'S AMENDMENT/COMMENT

1. Note: The amendment filed May 20, 2004 under 37 CFR 1.116 in reply to the final rejection has been considered but is not deemed to place the application in condition for allowance and **will not be entered** because:

a. There is no convincing showing under 37 CFR 1.116(b) why the proposed amendment is necessary and was not earlier presented.

b. The proposed amendment raises new issues that would require further consideration and/or search – i.e. the new recitation in claims 39, 76, 77, 78, 79 and 80 that the crown portion extends in a plane substantially parallel to the geometric axis of rotation of the support and that the edges of consecutive deposition sections abut evenly along their entire crown portions extending between transition regions raises new issues requiring further consideration and/or search.

c. The proposed amendment is not deemed to place the application in better form for appeal by materially simplifying the issues for appeal.

2. Note: In view of applicant's failure to file a brief within the time prescribed by 37 CFR 1.192(a), the appeal (Notice of Appeal filed 10-22-2003) **stands dismissed** and the proceedings as to the rejected claims are considered terminated. See 37 CFR 1.197(c).

This application will be passed to issue on allowed claim 46, the remaining claims being canceled by examiner's amendment as follows:

Art Unit: 1733

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

Rejected claims 39-45, 47-57 and 67-80 have been canceled.
